🎯 OBJECTIVE

A motivated 200-level Management Information System (MIS) student at Covenant University with a growing interest in technology. Seeking opportunities to apply foundational programming knowledge and problem-solving skills in real-world settings. Passionate about learning and contributing to innovative tech solutions.

📚 EDUCATION

Covenant University – Ota, Ogun State
B.Sc. Management Information System
Expected Graduation: 2028
CGPA: 3.95/5.0

💻 TECHNICAL SKILLS

• **Programming Languages:**
- Built responsive static websites using HTML, CSS and Vanilla JavaScript.
- Currently learning CSS Frameworks and JavaScript Libraries to improve efficiency and ensure consistency in my code.

• **Tools & Platforms:**
- GitHub: Version Control for Personal Projects
- Chrome DevTools: Debugging HTML/CSS/JS
- VS Code

• **Soft Skills**: Teamwork, Communication, Problem Solving

🤝 EXTRACURRICULAR ACTIVITIES

• **Member – Google Developer Group (GDG), Covenant University (2024 – Present)**
I Participate in tech workshops, coding sessions, and developer meetups with peers to learn modern web development and problem-solving techniques.

• **Finance and Account Intern – Overland Airways Limited, Landover Company (August 2025 – September 2025)**
- From August 18 to September 12, 2025, I interned at Overland Airways, gaining experience in office operations through rotations in the Central Finance and Accounts Departments.
- I analyzed high-level financial operations, gaining insight into enterprise data structures.
- I processed and validated high-volume daily revenue streams, ensuring data accuracy within the central accounting system.
- I maintained physical and digital archives to ensure fast data retrieval and compliance during internal audits.

🧪 PROJECTS

• **Personal Portfolio Website**
- A Portfolio website that showcases all my projects and can serve as my portfolio.
- Technologies: HTML5, CSS3 (Flexbox, Grid), JavaScript
- Features: Navigation Menu, Project Gallery, Contact Form with Validation
- Learning: Responsive Design, Accessibility Basics, and Git Version Control

- Hosted on Vercel: https://kt-portfolio-website.vercel.app/

• Resume Website
- A Responsive Website that can serve as my Resume
- Technologies: HTML5, CSS3
- Features: Responsive Layout, Project Showcase, Downloadable CV
- Hosted on Vercel: https://my-online-resume-sepia.vercel.app/

• Blog Website (The Dev Anvil)
- A simple blog where I talk about my experiences & things that I've learned
- Technologies: HTML5, CSS3 (Flexbox, Grid), JavaScript
- Features: Regular Updates, SEO Optimization, Opportunity for Interaction via Comments
- Hosted on Vercel: https://the-dev-anvil.vercel.app

🚀 LEARNING PATH
• Currently advancing my skills in:
- Frontend Web Development
- Responsive Design & CSS Framework (Tailwind CSS)
- JavaScript ES6+ and Version Control with Git
- Participating in FreeCodeCamp, Codecademy and Harvard's CS50 courses

🌐 INTERESTS
• Advancing my skills in Full-Stack Development
• Attending Tech Meetups and Webinars
• Problem-solving and Logical Reasoning Games
